

FOR IMMEDIATE RELEASE

McClung-Logan Equipment Company and ML Utilities Field Services Join Forces to Expand Service Offerings

Baltimore, Maryland – (September 18, 2023) McClung-Logan Equipment Company, Inc., headquartered in Baltimore, MD is pleased to announce that as of September 1, 2023, the field service division of ML Utilities transferred to and became a division of the McClung-Logan Equipment Company. This new division is called McClung-Logan Utilities.

This new division will focus on the repair and maintenance of utility vehicles such as bucket trucks and digger derricks that are used in the power transmission, telecom, tree and sign industries.

The ML Utilities Company will continue to specialize in building utility vehicles.

The McClung-Logan Equipment Company has ten branches throughout the Mid-Atlantic which will allow McClung-Logan Utilities to expand their capabilities and influence in the market. This integration will significantly enhance our field services operations and bolster our commitment to delivering efficient top-notch service. This separation of responsibilities allows McClung-Logan Equipment Company to have access to the expertise and resources that will enhance their capabilities in serving the field service utility sector and allow ML Utilities to focus solely on the truck upfitting business.

With a combined wealth of experience and a shared commitment to customer satisfaction, the two companies are poised to deliver comprehensive utility solutions that meet the evolving needs of the industry.
